

SEAL OF SECURITY

Poker Operator: LAMBO POKER
Operator Website: www.lambo1.com

The above-named Poker Operator, LAMBO POKER, has exclusive rights to CYBER GAMING's software in Iran, and this letter certifies the implementation of our highest level of security including but not limited to the following:

- Highest Assurance of Quality and Fair Play with Random Number Generator (RNG) Certification from iTech Labs
- Most sophisticated server security with the Highest Level Encryption and CloudFlare DDoS Protection for data protection
- Complex Firewall protection in Data Centers by applying proprietary Firewall rules to progressively protect the servers
- Server Monitoring System for monitoring Application Health Parameters, System Restarts, Timeout Calls, and Load Balancer
- Proprietary Encrypted Binary Server Connectivity with SSL protection for Client Server communications

Any other poker site operating in the same region claiming to be affiliated or developed by CYBER GAMING, or showcasing CYBERGAMING iTech Labs Certificate is deemed insecure for hacks and manipulation of winnings.

You are now viewing the original certificate on CYBER GAMING's official website. This certificate must be viewed ONLY on CYBER GAMING's website to be valid.
